stay connected with your customers
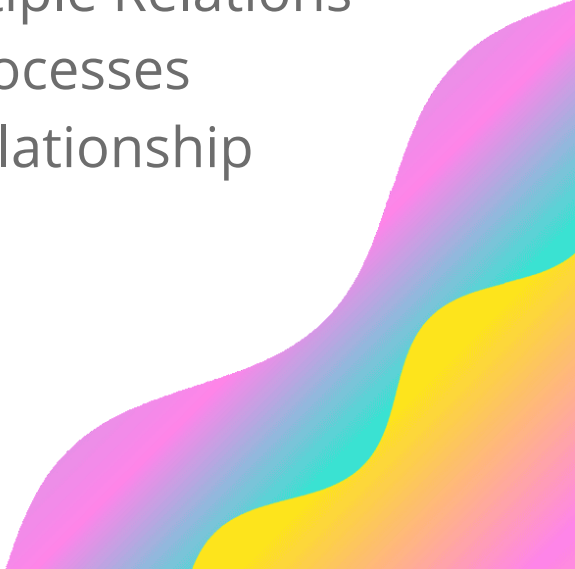

A complex technology simplified by CSPex

Common Challenges

Yours

- Dynamic Environment
- Competition
- Regulations
- Lack of Human Resources
- Quality of Service
- High Expenses
- Scalability

Your Clients'

- Understanding Processes
- Maintaining Fast Communication
- Maintaining Multiple Relations
- Keep Track of Processes
- Maintaining a Relationship

Solution is CSPex

Easy-to-Use

Consistent design makes it easy to learn and easy to use. Works both on desktop and smart devices. So the long learning curve problem is solved.

Integrated

CSPex is able to be connected with a wide variety of accounting, payment, banking software. So double entry problem is solved.

Cost-Effective

CSPex is offered in various packages for different usage types depending on the size. So the cost problem is solved.

Modular

CSPex is designed for CSPs and thanks to its modular structure the application is highly extensible and customizable. So, the strict structure problem is solved.

Connected

CSPex keeps you connected with your clients at all times. So the lack of communication is solved.

Tailor-Made

CSPex fits into your needs, not expecting you to fit into CSPex. So customization problem is solved.

Client

is not just a number

involve

them in your processes

- View Key Information
- View Complete Relations
- Manage Services
- View Financials
- Pay Bills Online
- Store and View Business Related Documents
- Communicate with Team
- News Feed
- B2B Networking

Use as **SaaS** on a shared Cloud, or

Run on **AWS/Azure Cloud** dedicated to your company, or

Run in-house on your own **on-premise** server.

scalable packages and white-labeling
